

WHAT TO DO ON HALLOWEEN

Halloween is a day where kids get to dress up in costumes, have fun with their friends and family, and get candy. Halloween happens on October 31st.

People dress up as lots of different things. I might see a doctor, a pirate, a witch, a cowboy, Buzz Lightyear, Moana, or a pumpkin.

When I see someone in a costume, I might want to know who it is. I should not try to take off the mask or costume by myself. I can use my words to ask them or ask my parent.

I should not be scared when I see people in costumes. They are just pretending and having fun on Halloween, like me!

On Halloween we can go Trick-or-Treating.

This means someone from my family will take me places to get candy and wear our costumes. We can **ONLY** go Trick-or-Treating on Halloween and **ONLY** with an

If we Trick-or-Treat at someone's house, I should not go inside when they open the door. Instead, I wait outside and say, "Trick-or-Treat!"

On Halloween, parents make the rules about when to eat candy. Sometimes, there will be candy that I can't eat.

Halloween is a fun day!
